Please consign your horses with us today. Our sale is a long time reputation one and highly advertised.

We feel your horse will sell here as high here as any sale in the country AND with a LOT less expense.

Try to have the horse fit up with good looking tack and give us your best salesmanship possible. Presenting a horse for sale in the sale ring is not always some ones specialty, so If it is not yours, it may be worth your money to pay some one that is more into the presentation & salesmanship of a horse for sale.

There are those horse dealers always looking for a buy – a horse to clean up, put a different tack & rider on it, and bring it back and along with their speech & presentation of the horse, resell for good profit.
